BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance is also to be made to his Widow, or if no Widow to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839 in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority and who served the above period, and whose services have been paid for by the United States and their Widows and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, Purchase the Land Warrants at ... rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations with a ... directions, which may be executed without the parties leaving their homes.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers and Seamen who have served FOURTEEN DAYS in any war of the United States since 1790 are entitled to 160 acres of land if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres without regard to the period of their service.

Persons having claims under this or any other Act will have them promptly attended to by calling on or writing to, A. L. RICHARDSON & CO., Railroad Exchange, Court Square, Boston, who pay cash for warrants.

IMPORTANT PROCLAMATION!
A Great Mystery Explained,

In the year of our Lord 1847 ... of analytical chemists, we discovered that by uniting certain vegetable agents which had never before been used in medicine, we obtained a property in ... possessing such marvellous quick power over ... that the moment it was applied to the parts afflicted with pain all uneasiness ceased. The most ... were relieved in an instant and the ... spasms and irritations were soothed and the system restored to perfect ease in a few minutes.

In 1849 we introduced this Remedy to the world under the name of

New England Roofing Company,

MANUFACTURERS OF
WARRENS' IMPROVED
Fire and Water Proof
Composition Roofs,
Office——7 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers and the Public to this much approved system of Roofing which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago and St. Louis and within the past year in Boston and vicinity where thousands are entirely satisfactory. It is rapidly superseding the use of all other kinds of Roofs, and is confidently offered to the Public as a mode of Roofing unobjectionable in every particular.

The materials employed are none of them subject to rot nor to rust, like the metals, nor will they expand and contract with the changes of temperature like tin and iron, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines in a greater degree than any other Fire Proof Roof now in use, the valuable requisites of cheapness durability, and security against both Fire and Water.

These Roofs require an inclination of not more than one inch to the foot, leaving them in good condition for a promenade for drying purposes and is of particular advantage to adjoining buildings in the event of Fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls and framing a steep Roof, still further reduces the cost of the building.

Another advantage gained, is the securing of rooms in the Upper Story, of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a three story building, with this improvement is not being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The Composition is so prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, no roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Offices.

More Evidence. The evidence is accumulating that the President endeavored to induce Governor Reeder to resign. A correspondent of the New York Times, writing from Eastern, ... that Governor Reeder, after two days' ... iteration and counsel with his friends, ... to accept the mission to England, ... understanding that the President through ... ary of State, should address him, the ... ior, a letter on the subject of the Kansas ... lities, which the Governor would answer, ... he correspondence should be published,—... above terms he would resign, and accept ... proffered place, which if necessary, we will ... tion, but the President declined, and all ... ther negotiation was suspended." These ... ts of the missions to China and England ... re made after the President was in full possession of all the facts in regard to those half-breed tracts, and yet Governor Reeder is removed for those alleged speculations, which the President was willing to overlook, if he could be relieved from the responsibility of making removal. A second Jackson, truly! By the ... by, is it not about time for the Union to deny ... these stories about Buck and Bucker?

The Springfield Republican says:

"We learn from a direct and undoubted ... source of information, the President Pierce ... sent a fortnight before the removal of Governor Reeder, gave to a friend of his from this State, ... most positive and emphatic assurances that ... should not consent to the removal of the Governor. And yet he received no additional ... ght on the subject except that contained in ... Governor Reeder's letter, and that certainly ... was very far from affording him any excuse for ... action. The truth is, that he had agreed to ... take the responsibility, and his asseverations to his ... Northern friends to the contrary, were but a ... weak expedient to get rid of a momentary difficulty."

Remarks.—Well, Doctor, Mr. S., holding just now, the editorial pen, remarks that you have given an utmost re picture of farming in the West. We can select attractive instances in Maine also. Farming and living are not all rose color any where. But we have heard so much of the West, that in the crisp mornings of October we may make you a visit, and call upon your industrious and thriving friend.

☞ We understand that the Eagle, a young "Hutton tank" of about *twenty boy power*, a ... of "No. 3 junior," will arrive the day in ... Boston, Mr. Hutton is also expected to-day.

The President has removed Rush Elmore, Associate Judge of the Supreme Court, Kansas, on grounds similar to those assigned for Governor Reeder's displacement.

The Grand jury of the United States Circuit Court at Cleveland, Ohio, has returned indictments against thirteen prisoners for manufacturing and passing counterfeit coin.

Liberty or Despotism.

In noticing some week or two since the news of the day, we mentioned briefly the fact of an excitement in Rockcastle county, Kentucky. We did not then publish the admirable letter of Cassius M. Clay, written upon the scene, to the Cincinnati Gazette. We wish a place that letter before our readers for the purpose of showing to them the essential spirit of slavery, and for this purpose we will mention, succinctly, the leading facts in the case. It appears that somewhere about the fourth of July last, a man named Fee undertook to make an emancipation speech in Lincoln county, but the people forcibly prevented him from doing so. Cassius M. Clay, as a champion of the right of freedom of speech, thereupon declared, in two or three public speeches, that Mr. Fee and himself would speak at Scaffold Cave, in Rockcastle county, on the 21st of July; and that Mr. F. should not be molested, except over his dead body. Citizens of Rockcastle, in obedience to a public call, held a meeting at their court house, and adopted the following resolutions:

Resolved, That Dr. Joplin, H. J. Williams, John Adams, and M. J. Miller be appointed a committee to wait on Mr. C. M. Clay, John G. Fee and all other abolition speakers and preachers, that they must desist from speaking or preaching in Rockcastle county under the penalty of being dealt with in justice and the law require.

The committee addressed a letter to Mr. Clay, asking him whether he had made such declarations and avowed such intentions as they had heard imputed to him. Mr. Clay replied in a calm, firm letter, denying what ever was false in the current rumors, but *repeating that Mr. Fee and himself would speak at the time and place appointed*. Public excitement ran high, and scenes of blood were generally anticipated, but Mr. Fee and Mr. Clay made their speeches, without molestation or interruption, to a large and attentive audience.

By this standing fast to the right of speech, Mr. Clay has gained a great victory in Kentucky, and made a highly favorable impression upon the public mind.

The following letter of Mr. Clay's was written, as will be noticed by the reader, just as he was about to go out to address the meeting referred to. It is a noble letter:—

JULY 19th, 1855.

EDS GAZETTE: To-morrow I go to the field of contest, to determine whether the liberty of speech and religious freedom is longer possible in a slave State! In this unequal struggle, as the result could be foreseen, I deem it due my own character, and the great issues pending, to say a parting word through a press where *suppression* is impossible. Born and bred in a slave State, every hour of my experience compels me to grow that the world has not yet begun to conceive the consistent Jesuitism and unfathomable impiety of the slave *propagandists*. They who stand at the cradle, ignoring the holy sentiments which consecrate the pledges of devoted and mutual love, to enfeeble God's noblest work, and to stifle the immortal aspirations of a human soul, are not the men to show magnanimity, or indulge in the weakness of justice, mercy, and truth.

It is their vocation to domineer over the human mind, and to subject brute power to the superior forces of intellect. Gentle, polished, and winning at first, bullying, and remorselessly cruel—appealing alone time to the sentiments, now to the passions, and then to the fears of men—they must be "cunning in fence," indeed, who can stand up under such odds.—No wonder then that they have taken possession of the press, the pulpit, and the government; and that the boasted liberties of the American people lie crushed and bleeding under their iron heel! But despotism is, under whatever name, ever where the same; and its chief and last resort is *force*. To *this* has the slave power now come. Its organs threaten to drive out the new Congress with arms—renewed violence swells on westward, and cannon and the rifle, and the Bowie knife, overthrow the civil power; and despotism reigns supreme in place of vaunted "popular sovereignty"—in the great prairies to often solemnly pledged to liberty, to civilization and Christianity.

When Gov. Reeder is threatened with the halter, and assaulted with intent to kill, the representative of the American sovereignty, and Frank Pierce, who was very tardy in summoning the national power to the re-capture of a poor negro fugitive from slavery, repudiates his own government and plunges the sword of justice into the heart of his own standard bearer; it cannot be expected that I should advance, unopposed, the vanguard of the 'Republican' army in the midst of its enemies. I see now—I have long seen the meshes gathering around me. Let it come, then—here, too forcibly reprove me if the instincts of self-preservation have caused me to cry out too wildly for the exposed eyes of a self-deluding nation, against the onward march of despotism. When Douglas & Co. repealed the Missouri Compromise, how could I refrain from denouncing them as *worthy of death!* Not from me—not for me comes the imprecation.—I am mine will be forgotten in the great issues of his crime, and my voice will be silenced in the tears—the blood—the woe, which will follow in its wake, and the lamentations of the widows and the orphans which it will have! No, to all America the time has come—Liberty or despotism!

The Courier of Louisville found us quietly at our work. It called upon its myrmidons to imitate the deeds of Atchison and Douglas and Stringfellow. Ready with pistol and Bowie-knife, they also are John G. Fee, the fearless martyr-spirit of our party, in religion. If a life had not have followed last in the footsteps of this execution that had not been the fiend of slavery! He is *falsely* accused of distributing tracts to slaves, and exciting insurrection!—Mr. Fee sends his denial to the Courier with the programme of his action, laid down in the annual report of the American Missionary Society. Did he retract his calumny?—did the publish its refusal son? No, that would have been like the mercenary tool of despotism—*Unbound* he is condemned and a coward!

I come to the rescue of my friend, the defender of my cause. Now once more against me, alone, unbound, the Courier publishes a libellous letter and, fiendishly invokes bloodshed! The resolutions posted at the Lancaster meeting and published in the Cincinnati Gazette, were read at the meetings at Brush Creek and Scaffold Cave, but there might be no question about our not resolutions. I know too well the scoundrelism of that party to trust myself to their magnanimity. I deliver myself that my name is placed beyond the sphere of calumny, and all my past history gives assurance that my friends may have cause to mourn my fate, but never my principles.

I call your attention once more to my letter in the New York Tribune, after the Nebraska crime. I ask of you the favor of its re-publication. I am assured that I had myself in sympathy with the great minds and heroic hearts of the nation. Thank God for the forebeats of the "good time coming!" All hail, Ohio!—all hail, the north!—all hail, the Republican party!

God on, then, with the sentiments of the 18th of July inscribing our platforms—July the 4th and July the 12th! May they both be engraved on the corner-stone of the coming temple—where the aspirations of the great Jefferson shall be fulfilled, and the revolution began in '76 shall commence being completed in '55!

But we shall not have a peaceful triumph.—Deity vindicates and expiates the violation of his eternal laws. Blood consecrates even the remorse of great wrong. Standing here under the acknowledged responsibilities of home and country, which no man can at will put on or off, I calmly look destiny, whatever it be, in the face; but living or dying, my aspirations shall be immortal—*may our country yet be free!*

Your obedient servant,
C. M. CLAY.

Freedom for Kansas.

A spec al interest begins to be awakened in our city, on the subject of organized emigration to Kansas. Mr Thayer, of Worcester, Mass., the originator of the plan, and D. W. Seiders, Esq., of Kansas, have engaged to address our citizens again on the subject, on Monday evening next, at the City Hall.

The mighty movement of the emigration of freemen to Kansas is destined to determine the character of a territory sufficient to make half a dozen States.

Mr. Thayer wishes to secure for Kansas, a colony of our lumbermen. He says that they are the strongest and bravest men on the continent—the Highlanders of America, and that if he can get a colony of five hundred of them, he will be ready to bid defiance to Atchison, Stringfellow and all their gang.

We are indebtedly in favor of the stay-at-home policy for the citizens of Maine, because we do greatly desire to have her resources developed, and her homes multiplied and made prosperous and happy, with an enlightened and religious people, enjoying all the delights of true social life. We would not turn away our ear from the call of liberty, that great cry, which is now arousing men all over the free North to battle for freedom! It becomes he duty of men, on some occasions, to go forth even to the battle field and the death struggle, in favor of freedom and the security of the home circle. It is believed that a similar necessity is now forced upon the country, in reference to the settling of Kansas with a freedom loving population. The plan of Mr. Thayer is to employ social organization to advance the cause of freedom in Kansas. This plan, if successful, as we pray God it may be, must be carried energetically and immediately into effect. It has been well remarked, that it is the chief benefit of the Emigrant Aid Company, of which Mr. Thayer is the originator and agent, that it holds Northern Anti Slavery sentiments as regards freedom in Kansas steadily to a practical object, and does not suffer it to exhaust and dissipate itself upon visionary plans and prospects. Kansas is no longer a dreamy land, over which impends a fearful doom, which we would gladly avert but know not how. There is a plain practical way of rescuing her from slavery, involving no disputed questions of constitutional law—identified with no party organization, but commending itself to the favor and support of all true friends of human freedom and popular rights.

As slavery has hitherto triumphed through its perfect social organization, so shall freedom hereafter possess the same means of defence or aggression. From an *institution*, it shall hereafter derive stability, energy and well regulated action.

Our people who wish to become more familiar with the subject, and particularly with the facts regarding the country and its claims and advantages, will have an excellent opportunity on Monday evening, in the facts which will be stated by Messrs Seiders and Thayer.

The President and Secretary of the Free Democratic League of New York, have issued an address, recommending to the Free Democracy of the State *not* to hold any separate convention for the nomination of State officers this Fall, but to unite with the Republicans in electing delegates to their State Convention, which is to meet on the 26th of September.—They state that the Republicans at Auburn last Fall, took ground per ectly satisfactory to them on the subject of Slavery, and that the time has come for a union of all men opposed to the aggressions of Slavery, upon a common basis, and in one common effort.

A Warsaw journal points out the losses of the Russian army. It has to mourn Generals Korniloff, Jotomer, Timoleseff, Simonoff, Schilder, Orbelion, and several others have been killed, Woronzoff, Menschikoff, and Dannenberg have retired. More than 600 officers of all ranks have been already lost by this war.

Pennotia must be rapid now in the armies engaged. We have heard of an ambitious platoon officer, who, after a desperate discharge of musketry, looked a long the line to observe the effect, and thus ejaculated, "Good God, only three officers down yet! Promotions will be slow at this rate!"

Another Murderer Lynched in Wisconsin.—*Milwaukie*, August 8. A special Court was held yesterday at the West Bend, for the trial of Debar, the murderer of the Meyer family, the result of which was a verdict of murder in the first degree. While being conveyed back to jail, guarded by the military, a mob made a rush upon him. The military gave way, Debar was then piled on the ground by stones, and the mob fell upon him, beating and mangling him horrible. They then tied a rope to his heels, and dragged him through the streets one-half a mile, and hung him, head down wards, where he remained hanging lifeless.

On the first page will be found an account of the murder of three persons in Wisconsin. Among the despatches will be found the sequel to the distressing affair. Debar, the murderer, was tried and convicted, and while being conveyed to jail, guarded by the military, he was seized by the populace and lynched with the greatest severity. The laws of Wisconsin it will be remembered, do not permit capital punishment, and this is the second instance within a few weeks where murderers have been lynched.

Raleigh, N. C. Clingman, Dem., in the eighth congressional district, is elected by an immense majority. Ruffin, Winslow, Branch and Craige, Democrats, in the second, third, fourth and seventh districts, and Paine and Biddle, K. N., in the first and fifth districts are elected. In the sixth district the contest is close and result uncertain.

St. Louis, August 8. Advices from Kansas mention great excitement concerning the new Governor. The Legislature distrusts his soundness on the slavery question. A petition is signed by the members, asking the President to appoint a pro-slavery Governor. Division is [illegible] of Democ...

Moline, L.L., July 30, 1855.

MESSRS. EDITORS:—In recently looking over one of the numbers of the Bangor Courier, published near the middle of last month, my attention was directed to an article headed "Settling in the West," taken from the Kennebec Journal, and purporting to have been written by a man of your State, who had spent the *long* term of six months, as an inhabitant of Wisconsin, the place that forms the subject of his remarks.

Now as you are led to give publicity to that and similar statements, to establish some of the characteristics of the "West," I will just refer you merely to a single case, out of many of similar import, as a counterpart, as it so recently came under my own observation, and which shall be at your service.

During last month, I took a short trip across the Mississippi river, back into Iowa, stopped over night at a farmer's house, and while there, my landlord gave a brief account of his new home, as well as particularly to show me, what could then be seen, as a further witness of the actual facts in the case.

He is, verily, "a live yankee," has a wife and five children, four of them are boys, the eldest about twenty, and the youngest some ten or eleven years of age.

He formerly came from the interior of Massachusetts, and some five or six years previous to the latter part of April 1854, he was settled on a farm near the bluffs of the Mississippi river, and in the vicinity of one of our new cities, and having sold his estate there at an advance, at that time, he very wisely moved farther back for cheaper land and better soil, and took up a larger plat of "raw prairie," which is his present location.

He and his sons, with the assistance of one carpenter, to whom they paid $110 for his services, (and that was more than was necessary, had it not been on a previous contract) have erected upon the premises a two story house, finished the outside and two rooms within, built one flight of stairs, and laid the floors throughout. He has put a good cellar under the house, built one chimney, dug and stoned a well some twenty thirty feet deep, besides adding the common "fixins" about the premises, for the keeping of horses, cattle, swine, fowls and the like.

Also during the summer and fall of 1854, he and his boys, with his own teams, "broke," as near as could well be ascertained without actual measurement, about 105 acres of the raw prairie, and last spring sowed some 160 acres of it with wheat, and which was then (last month) coming on finely, the kernel just beginning to fill, with the prospect of yielding some rising twenty bushels to the acre, and I have no doubt it has been fully secured ere this.

He also sowed seven or eight acres with oats, and planted about eight acres of corn, and three fourths of an acre with potatoes, besides "a clever patch" taken up with garden vegetables. And too, he has already set some ornamental trees to make his home even more beautiful in time to come.

During the present season, he has, also, with his own help, "broke" about forty acres more of prairie, and put it all into "seed corn," and which was then rapidly coming forward to bring up the rear of an abundant harvest.

One item more, the father and sons, (with the assistance of one hired man, about three weeks only,) have built some 280 rods of post and rail fence, and laid up about 100 rods more of sod fence during the above time.

Now gentlemen, you can see what has been accomplished on an entire new piece of land, within the short period of about fourteen months, (from April 1854, to June 1855,) by one man and four boys, with the small addition of labor before named, and now judge whether New England has any advantages over the West, either in health or farming.

And now let me say, in closing, that, should your very respected and much beloved predecessor, Mr. Seyward, happen to meet with these remarks, and should entertain a doubt of their import, he will *do the favor* to call some pleasant morning, and follow the track of his old friend some six hours, on foot, (as that is chiefly his mode of travelling in the West,) he shall have the pleasure of beholding the identical estate himself, and if he is not then satisfied by his own observation, that these statements are essentially true, he shall then be entitled to a free bill, a glossy beaver, and a new pair of boots.

Yours respectfully,
Robert Knowles.

General Quitman on Politics.—The famous leader of the Cuba filibusters has been nominated for Congress by the Democratic Convention of the Fifth district of Mississippi. In a letter which was read at the nominating Convention, he expresses the belief that the institution of negro slavery is right and proper, and should be fostered by the Federal Government, and that the preservation of slavery in Cuba, "which can only be effected by her independence and separation from the malign influence of European governments, is essential to the safety and preservation of our own system." He thus openly avows that the object of the meditated movement against Cuba was to perpetuate slavery both in Cuba and in this country. The General concludes with the declaration that it is consistent with the designs of Providence to encourage the Caucasian white race to carry humanity, civilization and progress to the rich and fertile countries south of us, which now, in the corruption of inferior and mixed races, lie undeveloped and useless, furnishing only a theatre of operations for British intrigue to annoy us, that the policy of our government heretofore has been too much influenced by the prevalent spirit of hostility to negro slavery, and the determination not to permit its extension, and that the South must look to her self for security, and keep its people always united upon the subject of slavery.—*Boston Journal.*

The Chamouni Guide.—Mr. Albert Smith has written a letter to the London Times, stating that there can be no truth in the story that the body of Jacques Balmat, the famous guide Chamouni, has been found embedded in ice at the foot of the *mer de glace*. The spot is two days' journey from the place where Balmat was lost, and is separated from it by mountain barriers. He expresses the opinion, however, that it may possibly be the body of Pierre Balmat, one of the three guides lost in Dr. Hamel's fatal attempt to ascend Mount Blanc, in 1820.

Rose Tomato Pickles.—Select handsome sized tomatoes, prick them and prick them with a fork, lay them in dry salt 24 hours, then soak them in equal quantities of vinegar and water 24 hours; take them out and lay them down in a crock with sliced onions; first a layer of tomatoes, then onions, with cinnamon, cloves and brown sugar; then cover the whole with vinegar.

The fishing business on Lake Superior may yet be said to be in its infancy, in consequence of the difficulty, until this season, of freighting over the falls. Now, however, it was carried on by the American Fur Company, who had five vessels engaged in the trade, while not in the freighting furs. It was known in 849, they exported over 10,000 barrels, besides 136 barrels of oil made from trying muquette the fattest fish that swims, and are taken in abundance by seines, on the lake shore. Another year will probably see hundreds of fishermen at many points on this island. It is the American Baltic.

American Institute. The 27th annual exhibition of this society for the encouragement of national industry will open in the New York Crystal Palace, on the 3d of October and continue through the month. The exhibition will be purely American, and will include all the products of the farm and garden, machinery, manufactures, all the minerals and metal of the country, building materials, artistical stones, terra-cotta, &c., the works of art and household industry in all its branches, are also included. John W. Chambers of New York is the secretary, liberal premiums will be awarded.

An accident occurred on Tuesday on the Vermont Central Railroad, three miles west of Waterbury Vt., which was occasioned by the breaking of one of the rails. The rear car was thrown off the track and down an embankment some twenty feet. In its descent it turned a complete somerset and finally landed right side up.

About twenty of the passengers in this car were badly injured, though none of them fatally. Mr Lemuel the Bridge Contractor, and Conductor Field were the most seriously injured. Dr. Thayer was on the train and rendered every possible assistance to the injured passengers.—The physicians at Waterbury were soon on the spot, and were unremitting in their attentions.

A Rare Instance.—The pulpit of the South Church was occupied yesterday, forenoon and afternoon, by two brothers, Rev Brown Emerson, senior pastor of the church, and Rev Reuben Emerson, of South Reading. The former is in his 78th year, and the latter in his 84th, and they have been pastors of this church *more than half a century each*. The entire ordinary services of the Sabbath, with the additional labor of the admission of church members, and the administration of the sacrament, were conducted by the two venerable pastors, indicating a rare degree of mental and physical vigor.—*Salem Register.*

A Wonderful Cow. A cow belonging to an oil manufacturer in Akron, Ohio, disappeared about five weeks since, and was supposed by the owner to have been stolen. The mill had not been running for a long time, and when a week ago some men entered it to make repairs, the cow was discovered shut up in the dome, and wasted almost to a shadow, having remained there without anything to eat or drink for thirty days. Nourishment was given her, a little at a time, and she is now rapidly recovering from the effects of her abstinence.

The Chicago Press suggests that in view of the recent ravages of grasshoppers and crickets in Great Salt Lake Valley, there is a strong probability of famine among the saints during the coming winter. If the accounts are correct, the growing crop will not furnish food for one-half the inhabitants; and at San Bernardino, eight hundred miles distant, the nearest point from which there could be hope of assistance, the wheat crop will be no more than sufficient for home use.

A writer in the Christian Witness says of the late Bishop Griswold that not one man in a thousand ever gave so little trouble to his friends. What he could do for himself, he always let no one to do for him. He was a hewer of wood and drawer of water, made his own fires, polished his own boots, carried his valise, and did his own errands.

The Elections. *Louisville*, August 8. A despatch from the Journal says, that D. C. Shortridge, (American) is probably elected Governor of Alabama.

The returns thus far received, show a gain in thirty four counties in Kentucky, for Morehead, (Know Nothing) for Governor, over Breckenridge's majority, of upwards of 3000.

Wooden clocks from Connecticut are selling quick in China. The Hi yahs rip out the clock work, and set up their idols in the cases, thus procuring a very showy and luxurious shrine for "Joss" at a small expense, there are several conveniences in the change, as the idol never runs down nor strikes, but keeps his hands always in order. Remarkable people, those Hiyahs!

Water has been used as a remedial agent in occasional instances, from the earliest periods to which medical history extends. It appears to have been practiced at Malvern, England, in the last century, according to something like the present system. Horace Walpole writes to Cole in 1775. "At Malvern they certainly put patients into sheets just dipped in the spring."

An Irish workman, whose name we do not learn, had his right leg broken and smashed badly just above the ankle joint, yesterday, at Messrs. Hinckley & Egery's foundry, by the falling of a heavy balance wheel, weighing 1,600 pounds, upon it.—*Journal.*

We rejoice in the favorable reports from New Jersey and Delaware in regard to the peach crop. The various papers of those States report the crop as being one of unusual abundance; indeed, in many instances the trees are borne down with fruit.

The Sandwich Islands this year will raise wheat enough to supply the Islands and of a very superior kind. They have got an agricultural society, from which $800 were paid in premiums, $600 added to making fund, and $1150 were received in one year.

The Puritan Recorder, in an excellent article on "A Settled Ministry," makes the remark that "An everlasting candidate, with one foot on the ground of his labors, and the other in the stirrup for a new journey to a more inviting field, is not a pastor."

A correspondent of the Baltimore American says that two thousand ladies were bathing at one time, at Cape May, last week. What a sight that would have been for the old Greeks, who went into ecstasies over *one* Venus rising from the sea.

Holloway's Pills. Wonderful Cure of a Diseased Liver. Mandy Burton, aged 31, 17 Fulton-st, Brooklyn, Long Island, New York, was for a long time in a precarious state of health, owing to her liver being diseased, the medical faculty prescribed for her in vain, and every remedy she took was thought likely to benefit her also made use of with the like ill success. About two months ago she commenced using Holloway's Pills and complied with the printed directions, which quickly produced a very pleasing change. Before she had taken seven boxes upon her chronic, being perfectly cured, to the agreeable surprise of her friends. These Pills are also infallible in all diseases of the stomach and bowels.

Memory.

BY WILLIAM J. MACNEVIN.

Oft, when the night winds sadly sing
Upon the passing storm
Beside my bed there stands alone
A spirit form

Whose name it hath a holy spell
Such as immortals wear,
And with an upper face serene
It stands with there

Oft, when the night winds sadly moan,
That spirit form I see
And in a low and gentle tone
It speaks to me

It holds up the years gone by,
From them deep sacred gloom
Dispense of cherished ones, that lie
Cold in the tomb

It has swept all my heart full well.
It touch the secret springs,
It tells,—ah, how can it tell!—
Long hidden things

Faith it—in accents strangely sad—
It fills my heart with grief,
Alas, that I've scarred tears are glad
And being relief

And when the spirit leaves my bed,
Those sad words I receive,
And then I rest like weary head
With high reserve

Oh, say! what form is this I see,
When night winds sadly moan,
Who voice to this that speaks to me
In solemn tone?

That spirit of the by gone years!
Down thy gentle ears,
Thou, Memory, wak'st the slumbering years,
Like dream like joys!

The present—from time's ocean vast
One drop alone—to mine
But oh the fullness of the past—
They all are thine

And when the night wind howleth drear,
And the wind sighs, I am
Would I call each one by, by name,
To come again

Ah, then I feel thy chilly tread
Like a frost I shudder at,
Then take the flow beside my bed
A gentle tone

Thou welcome holy memory,
Welcome thy tears that fall
Oh! come to past—I speak that are
And all is well

At times it's [illegible]
Still come in after years,
Speak [illegible]
[illegible]

And when I lay me down at last,
Of duty blessed,
When will my better home have passed
Beyond the eye.—

When life wanes like the retreat light
Into the eternal past
And the [illegible] night
Shall [illegible]

Then with a new [illegible] me bed,
Those me to be again
Like I should rest this weary head
For [illegible] pain

O, in that last sad day and hour
I ask of thee this prayer to me
Let all the gentle rest be thine,
Lord Messiah!

First Premium
PIANO FORTES

WE have received the agency for Bangor and vicinity for the sale of

Brown & Allen's Piano Fortes,

which are acknowledged by competent judges to be, in the essential properties of a Piano, the best now made in this country.

Mr Brown was of the old firm of Brown & Hallett, (whose Pianos have been long in the market, and are much admired for their durability and purity of tone) subsequently ten years foreman in the justly celebrated manufactory of the late Jonas Chickering, Esq, where he perfected and applied his PATENT GRAND ACTION

Piano Fortes of their manufacture are distinguished for evenness, and musical quality of tone, and superior construction. See extract from Report of Committee on Musical Instruments at the Rhode Island society for the encouragement of Domestic Industry, held in September 14th to 16th, 1854.

"After a careful examination of the workmanship, externally and internally and after repeated trials and hearings, your Committee feel prepared to say that this (Brown & Allen's) Piano Forte is one of the very best they have ever met with in the course of some seventeen years observation of the progress of Piano Forte manufacture in this country. In purity, combined with power and mellowness of tone, in evenness of tone from the bottom to the top of the scale, in the great excellence of the action; in thoroughness and elegance of workmanship throughout, in all the qualities, in short, which unitedly constitute a first rate Piano Forte, this instrument, in the opinion of your Committee, has not been surpassed by any Square Piano Forte hitherto produced among us, and they consider it eminently worthy of the highest premium in this department"

☞Read the following certificate from a well known competent judge

—CERTIFICATE—

To whom it may concern —I have had occasion to use and to select for many of my friends, Piano fortes made by Messrs. Brown & Allen, and I do not hesitate to say that their instruments are not second to those made by any other person or persons in the city, and in many of the more important points such as purity of tone and neatness of touch, durability, &c, I cannot but give to them the preference. I would therefore recommend to those who may wish to purchase, to call at 334 Washington street and examine for themselves

DR. J. H. SCHENCK'S PULMONIC SYRUP, For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old Indian receipt, which succeeded in effectually curing him. The family physicians and a large number of respectable gentlemen certified to the facts of the case, and soon this Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this case did, a sensation second to that only of a miracle, Dr. Schenck was waited upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results. In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and freely extended the hand of friendship and encouragement to Dr. Schenck, and introduced the medicine to the public, and used it in their own practice.

No other medicine operates upon the system in the manner that the Pulmonic Syrup does. It produces a healthy action upon the morbid parts, by purifying them from disease; it promotes the expectoration, allays the cough, ripens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or ulcers produces, and the lungs become sound and resume the performance of their natural functions, it also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health. A superior property the medicine possesses over all others is, that it contains no opium, calomel, or any other deleterious medicine.

In 1841 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none, in curing a disease that has heretofore been deemed incurable, and he has since then only presented to the world incontestible evidence of his success.

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

Thus left, nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be only able to leave his bed for a long time, and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we fully attribute his declining state, and our belief that those salutary effects have resulted from the use of the Pulmonic Syrup.

KENNEDY'S MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures and along old stone walls, should cure every humor in the system. Yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, hitting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

Roxbury, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

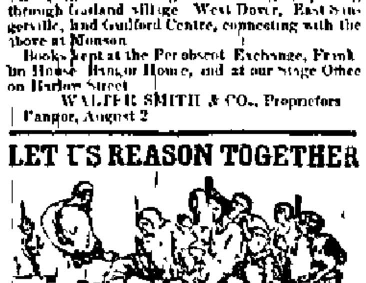
LET US REASON TOGETHER.



HOLLOWAY'S PILLS!

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel

TESTIMONY FROM MAINE.

Carl Dimon [illegible], Crookham, Maine, July 10, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last, taking up one newspaper having your advertisement of "Hoofland's German Bitter," and I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place, where you should have an agency, as you would sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine April 2, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story.

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

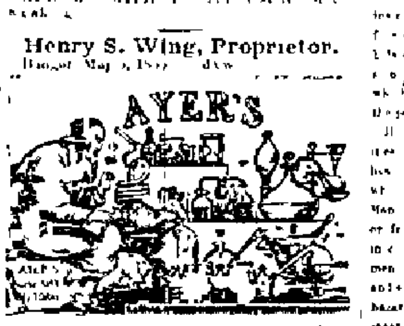
AYER'S



CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquirers.

Annexed we give *Directions* for their use in the complaints which they have been found to cure.

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of *Costiveness*, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *heartburn*, *bodyburn*, and *soulburn* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

FOR A FOUL STOMACH, or *Morbid Inaction of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at first, and smaller doses afterwards, until activity and strength is restored to the system.

FOR NERVOUSNESS, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back, or Side*, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't wear these and their kindred disorders because your stomach is foul.

FOR SCROFULA, ERYSIPELAS, *and all Diseases of the Skin*, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients! your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the unclean diseases of the skin, because your system wants cleansing.

TO PURIFY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of incurable diseases will be swept out of the system like chaff before the wind. By this property they do as much good in preventing sickness as by the remarkable cures which they are making everywhere.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some derangement—either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhoea, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow, the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhoea, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Fevers* are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.
